Hudson-Essex Parts

.

Due to many misunderstandings regarding yearly models of cars, motor or car numbers designate the usage of each part. Car serial numbers will be found on plate attached to front of dash under hood. Essex motor numbers are stamped on left side of cylinder near water inlet elbow. Hudson motor numbers are stamped on left front motor leg.

Ordering Parts

When ordering parts check carefully the motor and serial number of the car for which the parts are wanted. Yearly models mean little to the Hudson-Essex Dealer.

In order to reduce the chances for error, the motor or serial number is given in each instance designating the usage of the part.

Order parts by number from the Hudson-Essex Dealer.

“There is hardly anything in the world that some man cannot make a little worse and sell a little cheaper, and the person who considers price only is this man’s lawful prey.”
